# One-service survey: Comments, points to ponder and clarify

- The change will not please everyone:
  - 10:00 or later services tend to limit other activities that can be done on Sundays | Would highly prefer having the service later in the day to allow the Sunday morning to not be too rushed
  - Must leave by 11:15 | 11:15 service is the only one that works for us
- Music folks need time to rehearse in Sanctuary prior to service.
  - Choir would welcome a single service starting at 10 or 10:30
- RE will have teacher team rotation, to attend services.
- Coffee hour builds community. But when and how long?
  - Coffee hour at end of morning? Between forum and service? After both forum and service? Half an hour, longer? (Top choices show one coffee hour at end of morning, following forum and service.)
- ... concerned how we would handle parking. I understand that the office buildings' lots are available but many members are not used to parking further away ...
- Staff salaries would not be affected by switching to one service.
